

## PRESS RELEASE

### Success With People Launches New Services

**Novato, California (September 21, 2005)** – Success With People, an organization dedicated to helping others manage people and priorities more effectively, launched new coaching, consulting, assessment, and employee screening services on their web site [www.successwithpeople.com](http://www.successwithpeople.com).

“It is time for the company to expand beyond the book, *Success With People*,” commented founder David Russell, “to offer services that people are requesting to help them implement the 12 *Desired Results* within our proven system.”

Immediately available online is the book, *Success With People*, and for a limited time a special offer of a free copy of its e-book companion, *40 Days to Success With People* (\$20 value).

Coaching services are available on an individual or company basis. The *Warm-up Session* provides an introduction at a deeply discounted rate of \$199 for \$420 of services including *Workstyle* assessment, *Success Starting Point* and *Top Ten* goal exploration, plus one-hour of consulting.

Consulting for companies to implement the *Success With People* system within their organization. Our expertise comes from decades of business experience as senior executives and human resource professionals. We have both types of people on our team. Our focus is helping companies implement the *Success With People* system effectively within their organization in a manner that reinforces effective processes and replaces inefficient activity.

The company also offers assessments proven by decades of use in business to be fair, legally defensible, and importantly, effective in helping you place the *Right Person* in the *Right Job*. All assessments are available over the Internet. Consultants are available to help companies determine the best mix of assessments for their people.

Pre-employment screening reports are also available to Employers, Human Resources and Security departments. The qualified staff is dedicated to promoting a safe and profitable workplace through proper employment pre-screening and credentials verification. These services combine human resources, public records and legal expertise in providing your company with fast, accurate and cost-effective employment pre-screening.

And lastly, software by KnowledgePoint for managing employee performance, writing job descriptions and creating a policy manual are offered, including a unique bundle perfect for new companies and entrepreneurs.

**About Success with People**

Success With People ([www.successwithpeople.com](http://www.successwithpeople.com)) offers consulting, software and services focused on helping entrepreneurs, managers and business owners manage people and priorities more effectively. We are an organization of senior-level business professionals with very different yet complementary skills and experiences. We sincerely believe that when our solutions help people become better managers, then we enable those managers to positively impact dozens, hundreds or thousands of people. The efficiencies our system provides positively impact your bottom line.
